Hi Pete,

On Call is fine with me.

But I think it would be more fitting to have Nicole testify since she is the custodial chemist and is also qualified to interpret GC/MS data. Since GC/MS data is reviewable, she can form her own opinion to the chromatograms.

Thank you,  
Annie

Hi Annie and Nicole,

Just a reminder that this case (Lab #: [REDACTED]) is on for trial tomorrow. I just need one of you but both would be great. I will keep you on call until I find out whether it is going to trial.

Thanks

Pete
